

confusion remembered

did you know you didn't know me?

*when?*

remember you said that when we met?

*really?*

you said "I don't know you", remember?

*are you sure?*

you were unaware of me, remember?

*I don't think so...*

it's not like you not to remember is it?

*I don't remember this...*

you didn't have a clue, remember?

*did I not?*

remember you agreed you didn't know me?

*no...*

remember you were not yourself?

*I can't remember that...*

remember I said this is something serious?

*I'm very confused...*

remember I said you need to tell a doctor?

*about what?*

exactly, you don't remember do you?

*I'm unsure what you mean...*

your mind is unreliable, don't you think?

*what do you think?*

I'd tell a doctor as soon as you can.

*about what exactly?*

don't worry I'll remember what to say.
