

confidence

create a bright futuristic community glow
by switching on the caring light of self-love

stack achievements like

pebbles
each
unique
time
smoothed
shape
piling up

demonstrating the saying "I am who I am"

delicately balancing with hope and faith
inner beauty outwardly presented

the soft breath of your inbuilt fan
spreading warmth and words of courage

if knocked down
rebuild a new order
not one tear is lost
the focus just changed

step back, admire your quirky life stance
